### Archimedes ELITE Key Strip – Instructions

- 1 Unfold the strip so that it is flat.
- 2 If your computer has a slot for function key strips, either:
  - a) display all the information by placing the lower half of the strip in the slot, or
  - b) display only the function key information by folding the top part over backwards and placing the folded the strip into the holder, leaving just the lower part visible.
- 3 If your computer has no slot for function key strips, place the unfolded strip above and behind the function keys of the keyboard.
